TALKING POINTS FOR YOU

- A school is a social system in which people interact with and take care of each other. It is important for us all to take care of one another and do our part to slow the spread of COVID-19.
- Our priority is the health and wellness of our students and staff at <insert school district/ school name>. I can guarantee you that we are following the recommended guidance to ensure a healthy environment for everyone.
- Ohio students and educators are doing a great job of following the recommended health practices while at school. We'd like to remind everyone to continue following the same health practices while at home too.
- Guidelines show caring and respect for the school community and each other. Guidelines are not intended to make students afraid.
- We cannot pick and choose when we follow safety guidance. We have to follow it every single day.
- **We need to work together to practice social distancing, mask wearing and hand washing in order to keep schools and communities safe. We are all in this together.**
