Preface

The Multi-Year Training and Exercise Plan (MYTEP) establishes overall exercise program priorities and outlines a multi-year schedule of training and exercise activities designed to address those priorities and validate core capabilities. The Training and Exercise Planning Workshop (TEPW) provides a collaborative workshop environment for Whole Community stakeholders to engage in the creation of the MYTEP. The TEPW also serves as a forum to coordinate training and exercise activities across organizations in order to maximize the use of resources and prevent duplication.

On Wednesday, December 12, 2019, the Cuyahoga County Office of Emergency Management (CCOEM) conducted a Training and Exercise Planning Workshop (TEPW) to create its MYTEP for the years 2019 through 2021. The following entities contributed to the MYTEP and were physically present, many others provided input electronically.

- Alcohol, Drug Addiction, and Mental Health Services (ADAMHS)
- Amateur Radio Emergency Services (ARES)
- Case Western Reserve University (CWU)
- Center for Health Affairs
- City of Cleveland Department of Public Safety, Division of Emergency Management
- Cleveland Division of Police
- Cleveland Museum of Art
- Cleveland State University (CSU)
- Cleveland Department of Public Health (CDPH)
- Cleveland Heights Fire Department
- Cuyahoga County Communications (DOIT)
- Cuyahoga County Local Emergency Planning Committee
- Cuyahoga County Office of Emergency Management (CCOEM)
- Cuyahoga County Public Safety and Justice Services – Fiscal Department
- Cuyahoga County Board of Health (CCBOH)
- Cuyahoga County Community Organizations Active in Disasters (COAD)
- Cuyahoga County Court of Common Pleas: Juvenile Division
- Cuyahoga County Division of Public Works
- Cuyahoga County Juvenile Detention Center
- Cuyahoga County Sheriff's Department
- Cuyahoga Emergency Communication System (CECOMS)
- Federal Bureau of Investigation (FBI)
- Intermuseum Conservation Association - ICA
- Middleburg Heights Fire Department
- Ohio State University Agriculture Extension
- United States Coast Guard (USCG)
- Woodmere Fire Department

The MYTEP incorporates After-Action Reviews/Improvement Plans (AAR/IP) from incidents and events that occurred in 2018.

The MYTEP will be administered by the Cuyahoga County Office of Emergency Management and will be integrated into the State of Ohio's MYTEP.

Please Note: This Cuyahoga County 2019-2021 MYTEP is a living document; therefore, it is subject to revisions (specifically Appendix A, which is the calendar of Trainings & Exercise) as they occur. A Training and Exercise Workgroup will meet quarterly to update and de-conflict the MYTEP calendar and trackers. If quarterly meetings are not held, the MYTEP will be reviewed at least annually.

Points of Contact (POCs)

Cuyahoga County Office of Emergency Management

1. Primary Training & Exercise POC:

Serena Steele
Senior Emergency Management Specialist
Cuyahoga County, Office of Emergency Management
9300 Quincy Avenue
Cleveland, Ohio 44106
216-348-4392 (Office)
216-443-5700 (Secondary Office)
ssteele@cuyahogacounty.us

2. Alternate Training & Exercise POC:

Mark Christie
Manager
Cuyahoga County, Office of Emergency Management
9300 Quincy Avenue
Cleveland, Ohio 44106
216-443-5683 (Office)
216-443-5700 (Secondary Office)

Cleveland, Ohio 44106
216-443-3744 (Office)
216-443-5700 (Secondary Office)
agriffith@cuyahogacounty.us

Purpose

The purpose of the Multi-Year Training and Exercise Plan (MYTEP) is to document an organization's overall training and exercise program priorities for a specific multi-year time period. This MYTEP is a living document that will be updated and refined on an annual basis. These priorities are linked to corresponding core capabilities, and if applicable, a rationale based on existing strategic guidance, threat assessments, corrective actions from previous exercises, and other factors. This MYTEP identifies the training and exercises that will help CCOEM build and sustain the core capabilities needed to address its training and exercise program priorities.

The MYTEP lays out a combination of progressively building exercises—along with the associated training requirements—which address the priorities identified in the Training and Exercise Planning Workshop (TEPW). A progressive, multi-year exercise program enables organizations to participate in a series of increasingly complex exercises, with each successive exercise building upon the previous one until mastery is achieved. Furthermore, by including training requirements in the planning process, organizations can address known shortfalls within their Core Capabilities.

This MYTEP also serves as a companion document to the Cuyahoga County Threat and Hazard Identification and Risk Assessment (THIRA) and the Stakeholder Preparedness Review (SPR). The MYTEP provides a roadmap for Cuyahoga County and other partners throughout the County, State and FEMA region to follow in accomplishing the priorities described therein.

Included in this MYTEP is a training and exercise schedule, which provides a graphic illustration of the proposed activities, scheduled for the years 2019-2021.

Finally, this document satisfies the State of Ohio requirement for County Emergency Management Agencies (CEMAs) to complete a State multi-year training and exercise plan worksheet in order to be eligible for trainings funded through the Ohio EMA.

Program Priorities

Based on the guidance provided by the U.S. Department of Homeland Security (DHS) in the National Preparedness Guidelines, Cuyahoga County has identified priorities that serve as the foundation for the MYTEP.

The training and exercise priorities are established based on the review of operations during real life and exercise events as well as the Threat and Hazard Identification and Risk Assessment (THIRA) and the Stakeholder Preparedness Review (SPR).

Additionally, CCOEM maintains a Core Capability Crosswalk tracker that identifies the core capabilities and its missions that correlate with the training and exercises in Cuyahoga County. (Appendices C & D)

Methodology and Tracking

Methodology:

The various trainings and exercises were chosen based upon the thorough review of 7 AAR/IP reports developed in 2018 and several partial activations (e.g. special events), real-world incidents, and exercises where Cuyahoga County was involved in some capacity and a County agency or partner was directly mentioned in any of the Areas for Improvement identified. There were 43 areas for improvement that were identified, which were then linked to corresponding Core Capabilities.

Corrective Action Tracking:

To track improvement planning items, the CCOEM developed a Corrective Action Tracking tool to document the status and follow-up of Corrective Action items where a County agency or partner has agreed (or was tasked/asked) to perform the identified improvement planning for a particular Area for Improvement. It is the intent of the CCOEM to follow-up at least monthly with each person/entity in the County regarding corrective action item/planning status for each item. This will begin approximately January 01, 2019 and progress through 2021. Once items are corrected, then testing will be built into exercises employing the building block approach, per Homeland Security Exercise & Evaluation Program (HSEEP) guidance.

Appendix A:

Cuyahoga County Office of Emergency Management Multi- Year (2019-2021) Training & Exercise Schedules

NOTE: This Section is the “Living Portion” of this document and will be updated by the Cuyahoga County Training & Exercise Workgroup which will review and add or delete trainings and exercises quarterly (or whenever this workgroup convenes meetings).

Trainings Offered 2018					
Course Code	Training Name (full)	Length	Date (s)	Location	Requested By
G-300	Intermediate ICS	3 Days	January 8-10	Parma Fire Department	CCOEM
N/A	WebEOC Training	.5 Day	January 9	Cuyahoga County EOC	CCOEM; Ohio-EMA
G-400	Advanced ICS	2 Days	January 11-12	Parma Fire Department	CCOEM
AWR-317	REP Core Concepts Course (RCCC)	2 Days	January 22-23	Ohio-EMA	CCOEM; Ohio-EMA

MGT-360	Incident Command	TBD	January (TBD)	TBD	CCDoIT	
SAAT AWR-160-1	Standardized Awareness Authorized Training Program, Train the Trainer	TBD	April (TBD)	TBD	CC DoIT	
MGT-318	Public Information in an All Hazard Incident	TBD	January (TBD)	TBD	CSU PD	

CCOEM conducts routine trainings of the Ready Notify System to communities and County Departments authorized to send messages via the Ready Notify System; See Appendix E for an up to date list of community and county users

*Changes and Additions are highlighted (highlighted changes will be highlighted for one month)

*Courses Crossed Off Have Been Completed

Items highlighted in Yellow are new additions to this MYTEP

Items highlighted in Light Green are trainings and exercises identified during the 2018 TEPW

Exercises Offered 2018				
Exercise	Exercise Type	Location	Date(s)	Requested By
Burke Lakefront Airport	Table Top (TTX)	Cleveland Hopkins-Hopkins Room	January 25	Cleveland Airport System
Cleveland Hopkins International Airport	Table Top (TTX)	Cleveland Hopkins - Hopkins Room	January 25	Cleveland Airport System
OH Region 2 USAR	Full Scale (FSE)	Multiple Locations	August 13	OH Region 2 USAR
NDMS FSE /Volunteer Registration Center (VRC)	Full Scale (FSE)	Multiple Locations	August 15-16	CCOEM; COAD
Hopkins Airport Mass Casualty Exercise	Full Scale (FSE)	Cleveland Hopkins Airport	September 14	CCOEM
CCOEM Emergency Support Function (ESF)	Tabletop (TTX)	Cuyahoga County EOC	October 31	CCOEM
Regional Public Health Hospitals - Ebola	Functional (FE)	TBD	Q1 (January)	CCOEM
N/A	Full Scale (FSE)	Beachwood	Q1 (January)	Beachwood Police Department
State Burn Surge Coordination	Functional (FE)	TBD	Q2 (May)	NEO MMRS
Cuyahoga County LEPC/Westshore Hazmat	Table Top (TTX)	TBD	Q2 (June)	CC-LEPC
Eagle-Horizon	Functional (FE)	TBD	Q2 (June)	NASA
Case Western Mass Casualty	Functional (FE)	TBD	October	Case Western
USAR	Full Scale (FSE)	Multiple Locations	August 13	CCOEM; Region 2 USAR
Multi-County Exercise - OEM	Functional (FE)	TBD	TBD	CCOEM
Cleveland Indians	Full Scale (FSE)	Progressive Field	TBD	CCOEM; Cleveland Indians

CCOEM conducts routine trainings of the Ready Notify System to communities and County Departments authorized to send messages via the Ready Notify System; See Appendix E for an up to date list of community and county users

*Changes and Additions are highlighted (highlighted changes will be highlighted for one month)

*Courses Crossed Off Have Been Completed

Exercise Year 1 (2019)				
Exercise	Exercise Type	Location	Date(s)	Requested By
Regional Public Health Hospitals – Ebola	Functional (FE)	TBD	Q1 (January)	CCOEM
N/A	Full Scale (FSE)	Beachwood	Q1 (January)	Beachwood Police Department
CERT Culmination	Functional (FE)	Westlake	April 13	Westshore CERT
State Burn Surge Coordination	Functional (FE)	TBD	Q2 (May)	NEO MMRS
Cuyahoga County LEPC/Westshore Hazmat	Tabletop (TTX)	TBD	Q2 (June)	CC LEPC
Eagle-Horizon	Functional (FE)	TBD	Q2 (June)	NASA
Case Western Mass Casualty	Functional(FE)	TBD	October	Case Western
Emergency Support Function (ESF) TTX	Tabletop (TTX)	County EOC	October	CCOEM
USAR	Full Scale (FSE)	Multiple Locations	August 13	CCOEM; Region 2 USAR
Logistical Whirlwind Recovery Exercise	Full Scale (FSE)	Multiple Locations	August 14	CCOEM, Red Cross
Multi-County Exercise – OEM	Functional (FE)	TBD	TBD	CCOEM
Cleveland Indians	Full Scale (FSE)	Progressive Field	TBD	CCOEM; Cleveland Indians
Elections Security	Tabletop (TTX)	TBD	July (TBD)	CC DoIT; State of Ohio
WMD	Tabletop (TTX)	TBD	March (TBD)	CSU PD
Multi Agency WMD (Gordie)	Full Scale (FSE)	TBD	August (TBD)	CSU PD

OH-361 Fundamentals of Safe Room Design and Construction

Appendix C: Common Capabilities and Mission Areas

COMMON CAPABILITIES

- Operations Communications
- Community Preparedness and Participation
- Intelligence and Information Sharing and Dissemination
- Planning
- Risk Management

PREVENT MISSION AREA

- Chemical, Biological, Radiological, Nuclear, and High-Yield Explosives (CBRNE) Detection
- Information Gathering and Recognition of Indicators and Warnings
- Intelligence Analysis and Production
- Intelligence/Information Sharing and Dissemination
- Counter-Terror Investigation and Law Enforcement

PROTECT MISSION AREA

- Critical Infrastructure Protection (CIP)
- Epidemiological Surveillance and Investigation
- Food and Agriculture Safety and Defense
- Laboratory Testing

RESPOND MISSION AREA

- Animal Health Emergency Support
- Citizen Evacuation and Shelter-In-Place
- Critical Resource Logistics and Distribution
- Emergency Operations Center Management
- Emergency Public Information and Warning
- Emergency Public Safety and Security Response
- Emergency Triage and Pre-Hospital Treatment
- Environmental Health
- Explosive Device Response Operations
- Fatality Management
- Firefighting Operations/Support
- Isolation and Quarantine
- Mass Care (Sheltering, Feeding, and Related Services)
- Mass Prophylaxis
- Medical Supplies Management and Distribution
- Medical Surge
- On-Site Incident Management
- Responder Safety and Health
- Search and Rescue (Land-Based)
- Volunteer Management and Donations
- Weapons of Mass Destruction (WMD)/Hazardous Materials (HAZMAT) Response and Decontamination

RECOVER MISSION AREA

- Economic and Community Recovery
- Restoration of Lifelines
- Structural Damage Assessment

Appendix D: Core Capabilities and Descriptions

Core Capabilities	Mission Areas	Description
1. Access Control and Identity Verification	Protection	Apply and support necessary physical, technological, and cyber measures to control admittance to critical locations and systems.
2. Community Resilience	Mitigation	Enable the recognition, understanding, communication of, and planning for risk and empower individuals and communities to make informed risk management decisions necessary to adapt to, withstand, and quickly recover from future incidents.
3. Critical Transportation	Response	Provide transportation (including infrastructure access and accessible transportation services) for response priority objectives, including the evacuation of people and animals, and the delivery of vital response personnel, equipment, and services into the affected areas.
4. Cyber security	Protection	Protect (and if needed, restore) electronic communications systems, information, and services from damage, unauthorized use, and exploitation.
5. Economic Recovery	Recovery	Return economic and business activities (including food and agriculture) to a healthy state and develop new business and employment opportunities that result in an economically viable community.
6. Environmental Response/Health and Safety	Response	Conduct appropriate measures to ensure the protection of the health and safety of the public and workers, as well as the environment, from all-hazards in support of responder operations and the affected communities.
7. Fatality Management Services	Response	Provide fatality management services, including decedent remains recovery and victim identification, working with local, state, tribal, territorial, insular area, and federal authorities to provide mortuary processes, temporary storage or permanent internment solutions, sharing information with mass care services for the purpose of reunifying family members and caregivers with missing persons/remains, and providing counseling to the bereaved.
8. Fire Management and Suppression	Response	Provide structural, wildland, and specialized firefighting capabilities to manage and suppress fires of all types, kinds, and complexities while protecting the lives, property, and the environment in the affected area.
9. Forensics and Attribution	Prevention	Conduct forensic analysis and attribute terrorist acts (including the means and methods of terrorism) to their source, to include forensic analysis as well as attribution for an attack and for the preparation for an attack in an effort to prevent initial or follow-on acts and/or swiftly develop counter-options.
10. Health and Social Services	Recovery	Restore and improve health and social services capabilities and networks to promote the resilience, independence, health (including behavioral health), and well-being of the whole community.
11. Housing	Recovery	Implement housing solutions that effectively support the needs of the whole community and contribute to its sustainability and resilience.

12. Infrastructure Systems	Response, Recovery	Stabilize critical infrastructure functions, minimize health and safety threats, and efficiently restore and revitalize systems and services to support a viable, resilient community.
13. Intelligence and Information Sharing	Prevention, Protection	Provide timely, accurate, and actionable information resulting from the planning, direction, collection, exploitation, processing, analysis, production, dissemination, evaluation, and feedback of available information concerning physical and cyber threats to the United States, its people, property, or interests; the development, proliferation, or use of WMDs; or any other matter bearing on U.S. national or homeland security by local, state, tribal, territorial, federal, and other stakeholders. Information sharing is the ability to exchange intelligence, information, data, or knowledge among government or private sector entities, as appropriate.
14. Interdiction and Disruption	Prevention, Protection	Delay, divert, intercept, halt, apprehend, or secure threats and/or hazards.
15. Logistics and Supply Chain Management	Response	Deliver essential commodities, equipment, and services in support of impacted communities and survivors, to include emergency power and fuel support, as well as the coordination of access to community staples. Synchronize logistics capabilities and enable the restoration of impacted supply chains.
16. Long-term Vulnerability Reduction	Mitigation	Build and sustain resilient systems, communities, and critical infrastructure and key resources lifelines so as to reduce their vulnerability to natural, technological, and human-caused threats and hazards by lessening the likelihood, severity, and duration of the adverse consequences.
17. Mass Care Services	Response	Provide life-sustaining and human services to the affected population, to include hydration, feeding, sheltering, temporary housing, evacuee support, reunification, and distribution of emergency supplies.
18. Mass Search and Rescue Operations	Response	Deliver traditional and atypical search and rescue capabilities, including personnel, services, animals, and assets to survivors in need, with the goal of saving the greatest number of endangered lives in the shortest time possible.
19. Natural and Cultural Resources	Recovery	Protect natural and cultural resources and historic properties through appropriate planning, mitigation, response, and recovery actions to preserve, conserve, rehabilitate, and restore them consistent with post-disaster community priorities and best practices and in compliance with applicable environmental and historic preservation laws and executive orders.
20. On-scene Security, Protection and Law Enforcement	Response	Ensure a safe and secure environment through law enforcement and related security and protection operations for people and communities located within affected areas and also for response personnel engaged in lifesaving and life-sustaining operations.
21. Operation Communications	Response	Ensure the capacity for timely communications in support of security, situational awareness, and operations by any and all means available, among and between affected communities in the impact area and all response forces.
22. Operational Coordination	All	Establish and maintain a unified and coordinated operational structure and process that appropriately integrates all critical stakeholders and supports the execution of core capabilities.

23. Physical Protective Measures	Protection	Implement and maintain risk-informed countermeasures, and policies protecting people, borders, structures, materials, products, and systems associated with key operational activities and critical infrastructure sectors.
24. Planning	All	Conduct a systematic process engaging the whole community as appropriate in the development of executable strategic, operational, and/or tactical-level approaches to meet defined objectives.
25. Public Health, Healthcare, and Emergency Medical Services	Response	Provide lifesaving medical treatment via Emergency Medical Services and related operations and avoid additional disease and injury by providing targeted public health, medical, and behavioral health support, and products to all affected populations.
26. Public Information and Warning	All	Deliver coordinated, prompt, reliable, and actionable information to the whole community through the use of clear, consistent, accessible, and culturally and linguistically appropriate methods to effectively relay information regarding any threat or hazard, as well as the actions being taken and the assistance being made available, as appropriate.
27. Risk and Disaster Resilience Assessment	Mitigation	Assess risk and disaster resilience so that decision makers, responders, and community members can take informed action to reduce their entity's risk and increase their resilience.
28. Risk Management for Protection Programs and Activities	Protection	Identify, assess, and prioritize risks to inform Protection activities, countermeasures, and investments.
29. Screening, Search and Detection	Prevention, Protection	Identify, discover, or locate threats and/or hazards through active and passive surveillance and search procedures. This may include the use of systematic examinations and assessments, bio surveillance, sensor technologies, or physical investigation and intelligence.
30. Situational Assessment	Response	Provide all decision makers with decision-relevant information regarding the nature and extent of the hazard, any cascading effects, and the status of the response.
31. Supply Chain Integrity and Security	Protection	Strengthen the security and resilience of the supply chain.
32. Threats and Hazard Identification	Mitigation	Identify the threats and hazards that occur in the geographic area; determine the frequency and magnitude; and incorporate this into analysis and planning processes so as to clearly understand the needs of a community or entity.

Appendix E: County Departments and Communities Authorized to Send Messages via Ready Notify

1. City of Bay Village	2. City of Bedford Heights	3. City of Berea	4. BioWatch Advisory Council*
5. City of Broadview Heights	6. City of Brooklyn	7. Children and Family Services*	8. City of Cleveland Heights
9. County Emergency Communications System (CECOMS)*Cuyahoga County Board of Health (CCBOH)*	10. Cuyahoga County Communications Department*	11. Cuyahoga County Health and Human Services*	12. Cuyahoga County Office of Emergency Management (CCOEM)*
13. Department of Consumer Affairs (DCA)*	14. Division of Senior and Adult Services (DSAS)*	15. City of Fairview Park	16. City of Garfield Heights
17. Village of Highland Hills	18. City of Lakewood	19. City of Maple Heights	20. City of North Royalton
21. City of Olmsted Falls	22. Olmsted Township	23. City of Parma	24. City of Parma Heights
25. Parma Regional Dispatch Center (PRDC)*	26. City of Richmond Heights	27. City of Rocky River	28. City of Shaker Heights
29. City of Solon	30. Southeast Communication Center (SECC)	31. City of South Euclid	32. City of Strongsville
33. Veterans Service Commission*	34. Village of Walton Hills	35. City of Warrensville Heights	36. Village of Woodmere

* Denotes County Department / Agency

Appendix F: Exercise Types and Definitions

Discussion-Based Exercises

Discussion-based exercises are normally used as a starting point in the progressive planning and building-block approach and to the cycle, mix, and range of exercises. Discussion-based exercises include seminars, workshops, tabletop exercises (TTXs), and games. These types of exercises typically highlight existing plans, policies, mutual-aid agreements (MAAs), and procedures. Thus, they are exceptional tools for familiarizing agencies and personnel with current or expected jurisdictional capabilities. Discussion-based exercises typically focus on strategic, policy-oriented issues; operations-based exercises focus more on tactical, response-related issues. Facilitators and/or presenters usually lead the discussion, keeping participants on track while meeting the objectives of the exercise.

Seminars

Seminars are generally used to orient participants to or provide an overview of authorities, strategies, plans, policies, procedures, protocols, response resources, or concepts and ideas. Seminars provide a good starting point for jurisdictions that are developing or making major changes to their plans and procedures. They offer the following attributes:

- Informal discussions led by a seminar leader
- Lack of time constraints caused by real-time portrayal of incidents
- Low-stress environment employing a number of instruction techniques such as lectures, multimedia presentations, panel discussions, case study discussion, expert testimony, and decision support tools
 - Proven effectiveness with both small and large groups

Workshops

Workshops represent the second tier of exercises in the Homeland Security Exercise and Evaluation Program (HSEEP) progressive planning and building-block approach. Although similar to seminars, workshops differ in two important aspects: participant interaction is increased and the focus is on achieving or building a product (such as a plan or a policy). Workshops provide an ideal forum for the following:

- Building teams
- Collecting or sharing information
- Obtaining consensus
- Obtaining new or different perspectives
- Problem solving of complex issues
- Testing new ideas, processes, or procedures
 - Training groups in coordinated activities

In conjunction with exercise development, workshops are most useful in achieving specific aspects of exercise design such as the following:

- Determining evaluation elements and standards of performance
- Determining program or exercise objectives
 - Developing exercise scenario and key events listings

A workshop may be used to produce new standard operating procedures (SOPs), Emergency Operations Plans (EOPs), MAAs, Multi-Year Training and Exercise Plans (TEPs), and Improvement Plans (IPs). To be effective, workshops must be highly focused on a specific issue, and the desired outcome or goal must be clearly defined.

Potential relevant topics and goals are numerous, but all workshops share the following common attributes:

- Effective with both small and large groups
- Facilitated, working breakout sessions
- Goals oriented toward an identifiable product
- Information conveyed employing different instructional techniques
- Lack of time constraint from real-time portrayal of incidents
- Low-stress environment
- No-fault forum
 - Plenary discussions led by a workshop leader

Tabletop Exercises (TTXs)

TTXs involve key personnel, senior staff, elected or appointed officials who discuss hypothetical scenarios in an informal setting. This type of exercise can be used to assess plans, policies, and procedures or to assess the systems needed to guide the prevention of, response to, and recovery from a defined incident. TTXs typically are aimed at facilitating understanding of concepts, identifying strengths and shortfalls, and achieving changes in the approach to a particular situation. Participants are encouraged to discuss issues in depth and develop decisions through slow-paced problem solving, rather than the rapid, spontaneous decision making that occurs under actual or simulated emergency conditions. The effectiveness of a TTX is derived from the energetic involvement of participants and their assessment of recommended revisions to current policies, procedures, and plans.

TTX methods are divided into two categories: basic and advanced. In a basic TTX, the situation established by the scenario materials remains constant. It describes an emergency incident (i.e., scenario) and brings discussion participants up to the simulated present time. Players apply their knowledge and skills to a list of problems presented by the leader/moderator; problems are discussed as a group; and the leader generally agrees on and summarizes the resolutions.

In an advanced TTX, play revolves around delivery of pre-scripted messages to players that alter the original scenario. The exercise controller (or moderator) usually introduces problems one at a time in the form of a written message, simulated telephone call, videotape, or other means. Participants discuss the issues raised by the simulated problem, applying appropriate plans and procedures. TTX attributes may include the following:

- Achieving limited or specific objectives
- Assessing interagency coordination\
- Conducting a specific case study
- Examining personnel contingencies
- Familiarizing senior officials with a situation
- Participating in information sharing
- Practicing group problem solving
 - Testing group message interpretation

Operations-Based Exercises

Operations-based exercises represent the next iteration of the exercise cycle and are utilized to validate the plans, policies, agreements, and procedures solidified in discussion-based exercises. Operations-based exercises include drills, functional exercises (FEs), and full-scale exercises (FSEs). They can clarify roles and responsibilities, identify gaps in resources needed to implement plans and procedures, and improve individual and team performance. Operations-based exercises are characterized by actual response, mobilization of apparatus and resources, and commitment of personnel, usually over an extended period of time.

Drills

A drill is a coordinated, supervised activity usually used to test a single specific operation or function in a single agency. Drills are commonly used to provide training on new equipment, develop or test new policies or procedures, or practice and maintain current skills. Typical attributes include the following:

- A narrow focus, measured against established standards
- Instant feedback
- Performance in isolation
 - Realistic environment

Functional Exercises (FEs)

An FE is designed to validate and evaluate individual capabilities, multiple functions, activities within a function, or interdependent groups of functions. Incidents are projected through an exercise scenario with incident updates that drive activity at the management level. An FE simulates the reality of operations in a functional area by presenting complex and realistic problems that require rapid and effective responses by trained personnel in a highly stressful, time-constrained environment.

Response and recovery-focused FEs generally concentrate on exercising the plans, policies, procedures, and staffs of the direction and control branches of Incident Command (IC), Unified Command (UC), and/or multiagency coordination centers (e.g., emergency operation centers [EOCs]). Movement of personnel and equipment is simulated.

Prevention-focused FEs typically concentrates on exercising the plans, policies, procedures, agreements, networks, and staffs of fusion centers or law enforcement agencies with counterterrorism missions. Adversary actions are largely simulated and delivered in the form of shared intelligence; however, some of these actions may be carried out by simulated adversaries, or Red Teams, in a separate but coordinated category of exercise play.

Full-Scale Exercises (FSEs)

The FSE is the most complex type of exercise. FSEs are multiagency, multijurisdictional, multi-organizational exercises that validate many facets of preparedness. They focus on implementing and analyzing the plans, policies, procedures, and cooperative agreements developed in discussion-based exercises and honed in previous, smaller, operations-based exercises. In FSEs, the reality of operations in multiple functional areas presents complex and realistic problems that require critical thinking, rapid problem solving, and effective responses by trained personnel. During FSEs, incidents are projected through a scripted exercise scenario with built-in flexibility to allow updates to drive activity. FSEs are conducted in real time, creating a stressful, time-constrained environment that closely mirrors real incidents. The level of support needed to conduct an FSE is greater than that needed during other types of exercises.

Response-focused FSEs include many first responders operating under the principles of the National Incident Management System (NIMS) to effectively and efficiently respond to an incident. Personnel and resources are mobilized and deployed to the scene where they conduct their activities as if a real incident had occurred (with minor exceptions). An FSE also may include functional play from participants not located at the exercise incident response site, such as multiagency coordination centers (MACCs), EOCs, or hospitals. Typical FSE attributes include the following:

- Activating personnel and equipment
- Allocating resources and personnel
- Analyzing memorandums of understanding (MOUs), SOPs, plans, and policies
- Assessing equipment capabilities
- Assessing organizational and individual performance
- Assessing organizational and individual performance
- Demonstrating interagency cooperation
- Exercising public information systems
 - Testing communications systems and procedures

The level of support needed to conduct an FSE is greater than needed during other types of exercises. The exercise site is usually extensive with complex site logistics. Food and water must be supplied to participants and volunteers. Safety issues, including those surrounding the use of props and special effects, must be monitored.

FSE controllers ensure that participants' behavior remains within predefined boundaries. Simulation Cell controllers continuously inject scenario elements to simulate real incidents. Evaluators observe behaviors and compare them against established plans, policies, procedures, and standard practices (if applicable). Safety controllers ensure all activity is conducted within a safe environment.

Appendix G: List of After-Action Review/Improvement Plans (AAR/IP) for 2018

<i>Name of Exercise, Event, or Incident:</i>	<i>Type of Event:</i>	<i>Date(s) of Exercise, Event, or Incident:</i>	<i>Number of Areas for Improvement Noted:</i>
Eighth District Court of Appeals COOP	TTX	02/21/2018	1
LEPC Westshore Hazmat/Coast Guard	TTX	04/18/2018	3
University Circle Inc.	TTX	07/16/2018	16
2018 Region II USAR	FSE	08/13/18	
Botched Up NDMS Exercise	FSE	08/15/2018	13
Southpark Mall	FSE	09/30/18	7
Emergency Support Function (ESF)	TTX	10/31/18	3

The exercises listed above illuminate training and exercise needs pertaining to the following core capabilities:

- **Eighth District Court of Appeals COOP**
 - Operational Coordination
 - Situational Assessment

Area for Improvement:

May be available upon formal request to Eighth District Court of Appeals

- **LEPC Westshore Hazmat/Coast Guard**
 - Initial Notification of Response Agencies
 - Incident Assessment
 - Response Personnel Safety
 - Emergency Public Information

Area of Improvement:

Ensure company/patrol level personnel are as aware as those at the chief level on how to make notifications to agencies/partners outside of those normally contact during daily operations.

Train with ICS forms to maintain proficiency.

Have PIOs from nearby jurisdictions/departments work together prior to an incident occurring so they are familiar with each other's procedures. Host PIO training for additional members of various departments

- **University Circle Inc.**
 - Planning, Public Information & Warning
 - Operational Coordination
 - Operational Communication
 - Situational Assessment
 - Public Health, Healthcare, and Emergency Medical Services
 - Intelligence and Information Sharing

- **2018 Region II USAR**
 - Environmental Response/Health and Safety
 - Planning
 - Operational Communication
 - Mass Search and Rescue Operations

- **Botched Up NDMS Exercise**
 - Operational Communications
 - Operational Coordination
 - Public Health, Healthcare, and Emergency Medical Services

- **2018 Southpark Mall**
 - Operational Communications
 - Operational Coordination
 - Environmental Response/Health and Safety
 - On-Scene Security Protection and Law Enforcement

- **Emergency Support Function (ESF)**
 - Planning
 - Operations Coordination

Area of Improvement:

Includes more support agencies

Increase time allotted for exercise play in each module

Include additional modeling/detail in exercise scenario to engage more partners

Appendix H: Acronyms

Acronym	Definition
AAR	After Action Report
AED	Automated External Defibrillator
APS	Advanced Professional Series
ARC	American Red Cross
ARES	Amateur Radio Emergency Services
ARFF	Aircraft Rescue and Fire Fighting
ASAR	Air Search and Rescue
AWR	Law Enforcement Prevention and Deterrence of Terrorist Acts
CAMEO	Computer-Aided Management of Emergency Operations
CAP	Corrective Action Program
CBRNE	Chemical, Biological, Radiological, Nuclear, & High-Yield Explosives
CCOEM	Cuyahoga County Office of Emergency Management
CERT	Citizens Emergency Response Team
CIKR	Critical Infrastructure and Key Resources
CIP	Critical Infrastructure Protection
CISM	Critical Incident Stress Management
COML	Communications Unit Leader
COOP	Continuity of Operation Plan
CPX	Command Post Exercise
CPR	Cardiopulmonary Resuscitation
CRI	Cities Readiness Initiative
DCA	Department of Consumer Affairs
DHS	U.S. Department of Homeland Security
DPH	Department of Public Health
DSAS	Division of Senior and Adult Services
EM	Emergency Management
EMA	Emergency Management Agency
EMAC	Emergency Management Assistance Compact
EMP	Emergency Management and Planning
EOC	Emergency Operations Center

ERRP	Emergency Response and Recovery Plan
ESF	Emergency Support Function
ETHER	Environmental Health Training in Emergency Response
FE	Functional Exercise
FEMA	Federal Emergency Management Agency
FRO	First Responder Operations
FSC	Fire Support Coordinator
FSE	Full-scale Exercise
GIS	Geographic Information Systems
HAZMAT	Hazardous Materials
HCC	Hospital Command Center
HMEP	Hazard Mitigation Emergency Plan
HMO	Health Maintenance Organization
HRF	Homeland Response Force
HSEEP	Homeland Security Exercise and Evaluation Program
IAAI	International Association of Arson Investigators
IAP	Incident Action Plan
IC	Incident Commander
ICS	Incident Command System
IED	Improvised Explosive Device
IEMC	Integrated Emergency Management Course
IMAC	Interstate Mutual Aid Compact
IMT	Incident Management Team
IP	Improvement Plan
IRTB	Incident Response to Terrorist Bombing
IT	Information Technology
JIC	Joint Information Center
JIS	Joint Information System
LEPC	Local Emergency Planning Committee
MAA	Mutual-Aid Agreement
MACC	Multiagency Coordination Centers
MARCS	Multi Agency Radio Communications System
MCI	Mass Casualty Incident
MEP	Master Exercise Practitioner
MGT	Management
